Recommended Open Space Projects for 2010

Pompton Riverwalk - Phase IV

Submitted by: Pequannock Twp.

Type of Acquisition: Acquisition in Fee Simple **Grant Amount:** $1,075,500

Description:

These seven properties are located on the Pompton River, on both sides of Route 23. Phase IV is a continuation of a long term project to recover riparian buffers and flood mitigation along this river. The first three phases were funded with assistance from the county open space grant program, and the majority of the properties in these Phases are now preserved. Acquisition will fill in the gaps between existing preserved lands, and further the goal of creating a linear park along the Pompton River.
