Ayres Farm House

2003	\$9,314	Preservation Plan
2004	\$89,392	Exterior Restoration
2005	\$56,181	Exterior Restoration
2015	\$20,800	Construction Documents
2016	\$75,000	Interior Restoration
2016	\$51,600	Master Plan

Grant Recipient: Ayres/Knuth Farm Foundation, Inc.

Location: Denville Twp.

Ayres/Knuth Farm is one of the most complete examples of a 19th century agricultural complex in Morris County. Few changes were made to either the form or fabric of the Farm House over the years.

Funding from the County had assisted with a Preservation Plan and exterior work.

The 2006 grant assisted with the replacement of the main roof and archaeology master plan.

The Foundation used the 2009 grant to install Heating, Ventilating, and Air Conditioning (HVAC) system, with related electrical work.

The 2016 grant will provide for interior restoration including structural upgrades, Dutchman repair, and electrical work. A separate grant will complete a Farm Master Plan to assess the remaining structures on site and provide repair and restoration recommendations.
