L'Ecole Dr. Helen Miller Residence and Office was constructed in 1873 to serve as a one-room schoolhouse. The building became the home and office of Dr. Helen Miller, an early pioneer in female cancer detection and screening. The building is listed on the National and State Registers of Historic Places.

A Preservation Plan was completed with assistance from a 2011 grant that included structural and mechanical / electrical / plumbing evaluation.

A 2013 Construction grant has completed partial exterior restoration of the building including: restoration of the front porch, removal of the siding at the front (east) elevation, and repairs to the asphalt shingle roof and drainage.

A 2015 grant will help complete roof restoration.
