2013	\$190,216	Phase II Exterior Restoration
2015	\$162,260	Interior Restoration

Grant Recipient: Mount Olive Township

Location: Mount Olive Twp.

The 1855 church building is associated with the settlement of the Mt. Olive area before the Revolutionary War and the emergence of the village of Mt. Olive from that time through the middle of the 19th century. The former Baptist Church has been certified as eligible for the New Jersey Register. The building contributes to the Mount Olive Village Historic District, which is listed on the New Jersey Register.

The Township completed "A Study of the Historic Fabric and Existing Conditions", National Register nomination, and emergency stabilization for the Former Baptist Church, with assistance from a 2003 grant.

Grants from 2005, 2006, 2008 and 2011 completed roof replacement, steeple repair, removal of stained glass windows and restoration of the original windows, extension of utility hookups, installation of gas furnace, and exterior restoration including the repair of stucco, wood windows, masonry, and installation of a new bulkhead door.

The 2013 grant is completing all exterior restoration including stucco replacement and front entrance steps restoration.

The 2015 grant will assist with Phase III interior restoration of finishes, mechanical, electrical and plumbing upgrades, and structural repairs associated with the sanctuary roof.
