

# Morris County Preservation Trust Recommended Open Space Projects for 2011

## Pompton Riverwalk - Phase V

**Submitted by:** Pequannock Twp.

**Type of Acquisition:** Acquisition in Fee Simple

**Grant Amount:** \$988,000

**Location:** Pequannock Twp.

**Acreage:** 1.24

**Description:**

These six properties are located on the Pompton River, on both sides of Route 23. Phase V is a continuation of a long term project to recover riparian buffers and flood mitigation along this river. The first four phases were funded with assistance from the county open space grant program, and the majority of the properties in these Phases are now preserved. Acquisition will fill in the gaps between existing preserved lands, and further the goal of creating a linear park along the Pompton River.
