The 1758 Friends Meeting House is the oldest church building in continuous use in Morris County and is listed on the New Jersey and National Registers. It may have the most intact eighteenth-century Quaker meetinghouse interior in the nation.

The 2004 grant provided for a new heating system, restoration of historic fabric affected by the removal of the old system, restoration of the north façade and associated architectural fees.

The 2006 grant assisted with the restoration of the exterior of the meeting house, as well as the application of a stain for the Annex building.

The 2018 grant will assist with the preparation of a Preservation Plan.
